

Domestic Prosperity and Global Freedom Act, championed by my friend and colleague on the Energy and Commerce Committee, Congressman GARDNER of Colorado, a true leader in this area. This Act will help expedite approval of U.S. liquefied natural gas exports to our allies.

The United States is experiencing a North American energy boom that analysts predict can produce enough natural gas to meet our domestic demands as well as that of our global allies, including Ukraine and other Eastern European nations currently at the mercy of Russian energy supplies. Expediting U.S. liquefied natural gas exports serves our national security interests as an aggressive Russian regime looks to expand power in former Soviet Union countries. This legislation helps our allies in eastern Europe and across the globe, while creating jobs here at home through private investment and economic opportunity essential to improving the American economy.

As a member of the House Energy and Commerce Committee, I am proud to have helped bring this important energy global security measure to the floor today, and I urge all of my colleagues to support its passage. This is in the national security interest of the United States of America.

Mr. WAXMAN. Mr. Chairman, I continue to reserve the balance of my time.

Mr. GARDNER. Mr. Chairman, I yield 2 minutes to the gentleman from Ohio (Mr. RYAN), a sponsor of H.R. 6, somebody who has been with this bill, this legislation, from the beginning as we have worked on this bipartisan process.

Mr. RYAN of Ohio. I thank the gentleman. I probably won't take all the time, but I did want to stand up in support of this piece of legislation.

Mr. Chair, in my district in eastern Ohio, we have been—and I have heard speaker after speaker talk about the potential boom for our country and different regions of America. And my region that I represent is one of those areas along eastern Ohio.

I think if we are looking to address many of the issues of global warming, and I know there would be a lot of different discussions and opinions that I may have compared to a lot of people on the other side, but I believe that this is an opportunity for us to address that issue with liquid natural gas, to get it out into the marketplace, to make sure that the economic benefits are here in the United States, that our people in eastern Ohio, western Pennsylvania, into New York and the upstate New York area are able to benefit from this. FERC is going to have to approve these ultimately, at the end of the day, and so I don't think that we can pass up this opportunity to have a transition.

Now, I think, quite frankly, we missed the boat a few years ago when we had an opportunity to pass a comprehensive energy bill that would in-

vest into—in the bill that came before this House, money into coal research was an opportunity that I think we missed.

There was an opportunity for wind and solar and the alternatives that I think, ultimately, will be a part of an extended portfolio here in the United States. But today, the opportunity is with liquid natural gas and getting it abroad.

In one of my positions on the German Study Group, we were in Germany talking to Chancellor Merkel, and the first thing she said to us, as our delegation was over there, was let's talk about natural gas, the first thing, because she had Putin at that time, a year, year and a half ago, breathing down her neck, and now here we are. So I think there is an opportunity here. This is one step in a long process.

I want to thank the gentleman for his leadership and hope we can continue to build out this energy portfolio with natural gas and the others that will come along the way.

Mr. WAXMAN. Mr. Chair, I yield myself such time as I may consume.

For those who want to export natural gas, this bill really isn't necessary because the Department of Energy is approving enough export of natural gas that will allow us, in a few years, to be the largest exporter of LNG in the world. So DOE is acting.

For those of you who are concerned about global freedom, well, when we get all the facilities going to be able to export the natural gas and once we get all of the approvals to export natural gas, the countries who are going to receive this natural gas are most likely going to be China, Japan, and India, because that is where they are paying higher prices for natural gas. It is going to be more profitable to ship the LNG there.

I don't fault the companies for doing that. They are in business to make money. It is going to provide more money to ship the natural gas there.

Well, what about Ukraine? What about the countries that are under threat from Russia?

Angela Merkel, the head of Germany, may not realize it, but natural gas is not going to be there for quite a long time. It is going to take years. Therefore, if you think domestic prosperity is hinging on the ability to export natural gas, we don't need this bill.

If you think global freedom is hanging on the balance waiting for this bill to become law—and by “global freedom” you don't mean freedom for China to get more natural gas or India or Japan, but Ukraine and countries in eastern Europe—don't count on this bill to bring about global freedom.

The bill is grossly titled because it is promising more than this bill can ever deliver, and I would urge that this bill is not necessary and ought to be rejected.

Mr. Chairman, I yield back the balance of my time.

Mr. GARDNER. Mr. Chair, I yield myself such time as I may consume.

I thank the chairman for your leadership over this hour and thank the gentleman from California for the debate and the Members who came and debated this important piece of legislation today.

Look, we know this bill has the support of organizations like the National Association of Manufacturers, the U.S. Chamber of Commerce. People who represent the businesses of this country, the industrial might of this country, support H.R. 6 because they know that when we can produce our energy in our own backyard and help our allies to a greater prosperity for themselves, we are doing the right thing with H.R. 6.

□ 1715

This bill is the confluence of two policies that we try to promote but often fail to achieve: the policy of domestic job creation, where 45,000 people could be taken off the unemployment rolls because of H.R. 6. The other policy that we achieve with this legislation is to give our friends and allies a greater degree of freedom, a greater ability to be independent from Russia, their aggressive neighbors that just decide one day to invade.

Mr. Chairman, H.R. 6 is the work of a bipartisan group of lawmakers who have worked over the past several months to make sure that we have the support—not just from the Republican side of the aisle, but strong support from both sides of the aisle, Democrats and Republicans who believe that we should answer the call from our friends and allies for energy security, for economic opportunity at home, and to make sure that we continue the energy revolution in this country.

Opposition to the bill, as I said in committee, is like hanging up on a 911 phone call from our friends and allies.

Let's pass this legislation. Let's achieve exactly what the title of this bill says: prosperity at home and help for our allies.

Mr. Chairman, I yield back the balance of my time.

The Acting CHAIR. All time for general debate has expired.

Mr. GARDNER. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Mrs. WALORSKI) having assumed the chair, Mr. MCCLINTOCK, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 6) to provide for expedited approval of exportation of natural gas to World Trade Organization countries, and for other purposes, had come to no resolution thereon.

NORTH AMERICAN ENERGY INFRASTRUCTURE ACT

The SPEAKER pro tempore. Pursuant to House Resolution 636 and rule XVIII, the Chair declares the House in the Committee of the Whole House on

the state of the Union for the further consideration of the bill, H.R. 3301.

Will the gentleman from Florida (Mr. MILLER) kindly take the chair.

□ 1716

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 3301) to require approval for the construction, connection, operation, or maintenance of oil or natural gas pipelines or electric transmission facilities at the national boundary of the United States for the import or export of oil, natural gas, or electricity to or from Canada or Mexico, and for other purposes, with Mr. MILLER of Florida (Acting Chair) in the chair.

The Clerk read the title of the bill.

The Acting CHAIR. When the Committee of the Whole rose earlier today, a request for a recorded vote on amendment No. 3 printed in part B of House Report 113-492 offered by the gentleman from Vermont (Mr. WELCH) had been postponed.

ANNOUNCEMENT BY THE ACTING CHAIR

The Acting CHAIR. Pursuant to clause 6 of rule XVIII, proceedings will now resume on those amendments printed in part B of House Report 113-492 on which further proceedings were postponed, in the following order:

Amendment No. 1 by Mr. PALLONE of New Jersey.

Amendment No. 2 by Mr. WAXMAN of California.

Amendment No. 3 by Mr. WELCH of Vermont.

The Chair will reduce to 2 minutes the minimum time for any electronic vote after the first vote in this series.

AMENDMENT NO. 1 OFFERED BY MR. PALLONE

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from New Jersey (Mr. PALLONE) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

RECORDED VOTE

The Acting CHAIR. A recorded vote has been demanded.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 176, noes 233, not voting 22, as follows:

[Roll No. 350]

□ 1742

Messrs. POE of Texas, DUNCAN of Tennessee, HASTINGS of Washington, Ms. HERRERA BEUTLER, and Mr. MEEHAN changed their vote from “aye” to “no.”

Mrs. DAVIS of California and Mr. PETERS of California changed their vote from “no” to “aye.”

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated for:

Mrs. NAPOLITANO. Mr. Chair, on Tuesday, June 24th, 2014, I was absent during rollcall vote No. 350 due to a medical emergency in my family. Had I been present, I would have voted “yea” on the Pallone of New Jersey Amendment that ensures that the complete length of cross-border projects would be subject to full environmental review under the National Environmental Policy Act (NEPA).

AMENDMENT NO. 2 OFFERED BY MR. WAXMAN

The Acting CHAIR. The unfinished business is the demand for a recorded vote on the amendment offered by the gentleman from California (Mr. WAXMAN) on which further proceedings were postponed and on which the noes prevailed by voice vote.

The Clerk will redesignate the amendment.

The Clerk redesignated the amendment.

□ 1752

So the amendment was rejected.

The result of the vote was announced as above recorded.

Stated for:

Mrs. NAPOLITANO. Mr. Chair, on Tuesday, June 24th, 2014, I was absent during rollcall vote No. 352 due to a medical emergency in my family. Had I been present, I would have voted "yea" on the Welch/Pingree/Kuster/Shea-Porter Amendment that ensures that major pipeline modifications receive a thorough environmental review.

The Acting CHAIR. The question is on the amendment in the nature of a substitute.

The amendment was agreed to.

The Acting CHAIR. Under the rule, the Committee rises.

Accordingly, the Committee rose; and the Speaker pro tempore (Ms. ROS-LEHTINEN) having assumed the chair, Mr. MILLER of Florida, Acting Chair of the Committee of the Whole House on the state of the Union, reported that that Committee, having had under consideration the bill (H.R. 3301) to require approval for the construction, connection, operation, or maintenance of oil or natural gas pipelines or electric transmission facilities at the national boundary of the United States for the import or export of oil, natural gas, or electricity to or from Canada or Mex-

ico, and for other purposes, and, pursuant to House Resolution 636, he reported the bill back to the House with an amendment adopted in the Committee of the Whole.

The SPEAKER pro tempore. Under the rule, the previous question is ordered.

The question is on the amendment in the nature of a substitute.

The amendment was agreed to.

The SPEAKER pro tempore. The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT

Mr. SCHNEIDER. Madam Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. SCHNEIDER. I am opposed.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. Schneider moves to recommit the bill, H.R. 3301, to the Committee on Energy and Commerce with instructions to report the same back to the House forthwith with the following amendment:

Page 9, after line 6, insert the following new section:

SEC. 10. PROTECTING THE GREAT LAKES AND OUR NATION'S DRINKING WATER SUPPLY.

The Secretary of State shall not approve an oil pipeline under section 3 if—

(1) a rupture or spill from such pipeline would result in toxic and cancer-causing chemicals, such as benzene, entering into the Great Lakes, the Ogallala Aquifer, or a community's drinking water supply; or

(2) the owner or operator of the oil pipeline was responsible for a major oil spill affecting a community's drinking water supply or has failed to properly clean up such a spill.

Mr. WHITFIELD (during the reading). Madam Speaker, I ask unanimous consent that we dispense with the reading of the motion.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kentucky?

There was no objection.

The SPEAKER pro tempore. The gentleman from Illinois is recognized for 5 minutes.

Mr. SCHNEIDER. Madam Speaker, this is the final amendment to the bill, which will not kill the bill or send it back to committee. If adopted, the bill will immediately proceed to final passage, as amended.

Madam Speaker, this amendment would ensure that our Great Lakes and the Ogallala Aquifer, and the tremendous economic benefits that come from them, will remain protected and safe from toxic chemicals.

As stewards of the health and safety of our communities, we should take sensible approaches to protect our most valuable assets. This amendment would safeguard our drinking water in 16 States for millions of our constituents—in Illinois, Minnesota, Michigan, Indiana, New York, Ohio, Pennsyl-

vania, Wisconsin, South Dakota, Wyoming, Nebraska, Kansas, Colorado, Oklahoma, New Mexico, and Texas.

The Great Lakes provide 56 billion gallons of fresh water per day for agriculture, municipal drinking water, and electricity production. Over 30 million Americans rely on the Great Lakes every day for their safe and clean drinking water.

This amendment would protect the Great Lakes from being put at risk by preventing the Department of State from approving projects that have the potential to contaminate the Great Lakes and their aquifers.

We owe it to our future generations to keep the Great Lakes healthy and to use the resources we have in a responsible and sustainable way.

This amendment also ensures that the owners and operators of pipelines who have been responsible for major spills in the past that resulted in contaminated community drinking water supplies will not receive special treatment to build additional pipelines across our borders.

When accidents occur in our Great Lakes, it is not a simple fix to restore the ecosystem and return to business as usual. The time it takes our Great Lakes to naturally rid themselves of pollutants can take up to 191 years. This is why we must take every precaution now to make sure that the health of our Great Lakes and the health of our economy are not put at risk for short-term gains.

□ 1800

Energy independence remains one of the primary drivers of our economy and will continue to have a major role in our future competitiveness and the health of our future generations. By eliminating commonsense environmental regulations and evaluations for projects with potentially massive public health consequences, it is a dereliction of our duty to protect our families, protect our communities, and protect our businesses that rely on the Great Lakes.

Instead of assessing the impact of the full project, the underlying bill would limit environmental review for new infrastructure projects to only the cross-border sections. We live in an interconnected environment, and the Great Lakes system is not an isolated resource but, rather, a complex ecosystem intertwined with the health and vibrancy of countless communities across two countries and eight States. What happens to one has an impact on all.

This amendment would ensure the proper planning and environmental impact evaluations are complete and that the total scope of projects are known and assessed.

The Great Lakes represents more than 1,000 miles of border between the United States and Canada. It is irresponsible to take on all the environmental risks to our drinking water, our \$4 billion fishing industry, and the 200

million tons of shipping that occur on the Great Lakes, including 90 percent of the Nation's iron ore and 58 percent of the automobiles produced here.

It is irresponsible to put at risk the millions of Americans who rely on the Great Lakes and the Ogallala Aquifer for their basic human needs. It is irresponsible to take on the risk of chemical and toxic contaminants permanently changing our environment for the worst without doing our own due diligence.

For all Great Lakes and Great Plains communities, I ask that you take this commonsense step with us to protect our safe access to clean drinking water and to deny companies who have a track record of contamination from being given the opportunity to do so again.

With that, Madam Speaker, I yield back the balance of my time.

Mr. WHITFIELD. Madam Speaker, I claim the time in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Kentucky is recognized for 5 minutes.

Mr. WHITFIELD. Madam Speaker, I would just say that H.R. 3301 is designed to do one thing: to treat all pipelines and electric transmission lines exactly as natural gas pipelines are treated.

The Great Lakes, we are all committed to. There are 33 separate environmental laws that would not be changed by this legislation.

With all due respect, I view this as a procedural vote that says “no” to North American energy security and lower prices. It is time to say “yes” and end procedural delays. Please vote “no” on this motion and say “yes” to North American security.

I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. SCHNEIDER. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, this 5-minute vote on the motion to recommit will be followed by a 5-minute vote on passage of the bill, if ordered.

The vote was taken by electronic device, and there were—ayes 185, noes 227, not voting 19, as follows:

□ 1817

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated against:

Mrs. NAPOLITANO. Mr. Speaker, I was absent during rollcall vote No. 354 due to a medical emergency in my family. Had I been present, I would have voted “no” on final passage of H.R. 3301—North American Energy Infrastructure Act.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 4899, LOWERING GASOLINE PRICES TO FUEL AN AMERICA THAT WORKS ACT OF 2014; PROVIDING FOR CONSIDERATION OF H.R. 4923, ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2015; AND FOR OTHER PURPOSES

Mr. BISHOP of Utah, from the Committee on Rules, submitted a privileged report (Rept. No. 113-493) on the resolution (H. Res. 641) providing for consideration of the bill (H.R. 4899) to lower gasoline prices for the American family by increasing domestic onshore and offshore energy exploration and production, to streamline and improve onshore and offshore energy permitting and administration, and for other purposes; providing for consideration of the bill (H.R. 4923) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2015; and for other purposes; and for other purposes, which was referred to the House Calendar and ordered to be printed.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. BYRNE). Pursuant to clause 8 of rule

XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

AUTISM COLLABORATION, ACCOUNTABILITY, RESEARCH, EDUCATION, AND SUPPORT ACT OF 2014

Mr. PITTS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4631) to reauthorize certain provisions of the Public Health Service Act relating to autism, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4631

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Autism Collaboration, Accountability, Research, Education, and Support Act of 2014” or the “Autism CARES Act of 2014”.

SEC. 2. NATIONAL AUTISM SPECTRUM DISORDER INITIATIVE.

(a) IN GENERAL.—The Secretary of Health and Human Services shall designate an existing official within the Department of Health and Human Services to oversee, in consultation with the Secretaries of Defense and Education, national autism spectrum disorder research, services, and support activities.

(b) DUTIES.—The official designated under subsection (a) shall—

(1) implement autism spectrum disorder activities, taking into account the strategic plan developed by the Interagency Autism Coordinating Committee under section 399CC(b) of the Public Health Service Act (42 U.S.C. 280i-2(b)); and

(2) ensure that autism spectrum disorder activities of the Department of Health and Human Services and of other Federal departments and agencies are not unnecessarily duplicative.

SEC. 3. RESEARCH PROGRAM.

Section 399AA of the Public Health Service Act (42 U.S.C. 280i) is amended—

(1) in subsection (a)(1), by inserting “for children and adults” after “reporting of State epidemiological data”;

(2) in subsection (b)(1)—
(A) by striking “establishment of regional centers of excellence” and inserting “establishment or support of regional centers of excellence”; and

(B) by inserting “for children and adults” before the period at the end;

(3) in subsection (b)(2), by striking “center to be established” and inserting “center to be established or supported”; and

(4) in subsection (e), by striking “2014” and inserting “2019”.

SEC. 4. AUTISM INTERVENTION.

Section 399BB of the Public Health Service Act (42 U.S.C. 280i-1) is amended—

(1) in subsection (b)(1), by inserting “culturally competent” after “provide”;

(2) in subsection (c)(2)(A)(ii), by inserting “(which may include respite care for caregivers of individuals with an autism spectrum disorder)” after “services and supports”;

(3) in subsection (e)(1)(B)(v), by inserting before the semicolon the following: “, which
